Education

Bachelor of Technology (Information Technology), HMRITM (GGSIPU) , DELHI 8.12 CGPA (7 th Sem: 9.12)	2022 - 2026
Kendriya Vidyalaya, New Delhi, India - CBSE (Class XII) Percentage: 79.2	2020 - 2022
Kendriya Vidyalaya, New Delhi, India - CBSE (Class X) Percentage: 72.8	2019 - 2020

Skills

Languages: Java , JavaScript, AI.
Web Development: HTML, CSS, Tailwind CSS, Bootstrap.
Databases: MySQL.
DevOps & Cloud: Git, GitHub.
Testing & Tools: Terminal, Git Bash ,VS Code, ChatGPT, Gemini.
Practices & Methodologies: Responsive Design.
Operating Systems: Windows.

Internships

FULL STACK DEVELOPER INTERN, DRDO, Delhi June'25 - July'25

- Developed a full-stack internal web application for DRDO's Solid State Physics Laboratory, **automating the announcement** process to enhance communication efficiency.
- Built a responsive and user-friendly frontend using HTML ,CSS, and JavaScript, enabling seamless content management for administrators.
- **Tech Stack:** PHP, MySQL, HTML5, CSS3, JavaScript.

JUNIOR SOFTWARE DEVELOPER(Virtual Internship), ELECTRONICS ARTS April'25

- Developed and presented a structured feature proposal to enhance user experience and functionality. Create a Game Object Class Designed and coded a class to represent game objects with useful properties and behaviors.
- Helped in organizing the game code and made it easier to manage objects. Designed and implemented a reusable game object class with properties like movement, interaction, and rendering.

Industry Projects

- 1. Bulletin Board Management System(Internship Project) :** Developed a dynamic web-based notice board for DRDO SSPL using MySQL & HTML, leveraging AI-assisted coding to accelerate the implementation of PHP backend logic. Implemented an admin dashboard for secure uploading of notices, creating a streamlined interface for employees to access official updates.
- 2. Automatic Number Plate Recognition (ANPR) System (Minor Project):** Designed the **frontend user interface** for a License Plate Recognition system, creating an interactive dashboard to display detected vehicle numbers and logs. Integrated the detection backend with a responsive web UI, ensuring seamless visualization of processed image data and recognition results.

Academic and Extracurricular Achievements

- **Research and Publication** - Title: **License Plate Recognition System Using Computer Vision and Optical Character Recognition (Paper Link)**
- **SMART INDIA HACKATHON,2024** - Qualified the internal collegiate round for Smart India Hackathon 2024. [\[Link\]](#)
- **CORE JAVA - INTERNSHALA** [\[Link \]](#)
- **DRDO INTERNSHIP CERTIFICATE** - [\[Link\]](#)
- **EA VIRTUAL INTERNSHIP CERTIFICATE** - [\[Link\]](#)
